

## **Joint Doctoral Forum AI in Academia**

Doctoral Academy Day 2024 &  
8<sup>th</sup> International PhD Conference Graz – Rijeka – Ljubljana  
28/29 November 2024, Graz

### **Call for Participation/Poster**

The Universities of Ljubljana, Rijeka and Graz cordially invite all their interested doctoral candidates to submit proposals to participate in the Joint Doctoral Forum on AI in Academia **in Graz on 28–29 November 2024!**

The first day of the joint doctoral forum will be a public event and focus on the influence of AI on research practices and academic culture in general. The event will address the possibilities of working with AI, introduce specific AI tools to use and identify practical areas of application, but also reflect on ethical implications and concerns in the usage of AI in research.

Doctoral candidates are invited to contribute to this event by sharing their research on (or with the assistance of) AI in the poster presentations, as well as providing their expertise, insights and experiences on the topic in exchanges as well as on the panel discussion “AI in Action: Real-world Examples Across Disciplines”.

On the second day, which will be a closed session, the first input by an expert on doctoral education will provide participants with insights into research careers and chances to reflect on their position in academia. After this short intro into the “secrets of academia”, the doctoral researchers will present their posters to their peers and attending experts.
