

University of Rijeka, Faculty of Maritime studies

PROJECT ACRONYM AND TITLE: Next BlueGeneration – The Next Blue Generation

FUNDING PROGRAMME: EMFAF

PERSON RESPONSIBLE: Ph. D. Đani Mohović

FINANCIAL DATA

Project total cost	Overall funding assigned to PFRI
€1.248.134,42	€94.106,50

SUMMARY

NextBlueGeneration Project will bring together the Blue Economy industry and the Education sector, and target young people by transferring information in form of tools directly from the experts to teachers.

For this aim it will deliver educational content, training, and tools of five sectors of the Blue Economy (Nautical Tourism, Maritime Transport, Marine Biotechnology, Aquaculture, Marine Conservation) in form of:

- an interactive Blue Career Pathway Tool,
- a BlueGeneration Game, and
- a MOOC for teachers to enhance the skills of teachers and students.

The interactive Blue Career Pathway Tool will provide individualised career guidance and self-assessment to students. The BlueGeneration Game will deliver information about the sectors in an attractive gaming format that is tailored to the preferences of young people. The MOOC will “train the Trainer” and deliver easy-to-use background information to teachers and trainers, enabling them to support young people in their career choices in the Blue Economy.

Start date	End date
01/09/2023	31/08/2026

PARTNERSHIP

Br.	Partner organization	Country	Role
1	Sea Teach S.L.	Spain	Lead partner

The European Marine Science Educators Association is a network of marine science educators acting as one voice across Europe and beyond. Established in 2011 EMSEA's overall mission is to act as a hub for the European marine education community to promote and deliver ocean literacy across society by working with scientists, teachers, policy makers and the public. EMSEA aims to support and engage teachers and educators, so they are better equipped for the task to make European students and citizens more ocean literate. What is more, is an international nonprofit organisation registered under Belgian law and a membership organization.
